MANAGEMENT DISCUSSION AND ANALYSIS REPORT

Overview

During the year 2016-17, the Company's sales have increased from ₹626.51 crores to ₹655.42 crores showing a marginal growth of 4.61%. Total Sales and Other operating income, net of excise have increased from ₹592.61 crores to ₹613.04 crores.

The performance of the Company was affected on account of demonetization notification that the Government of India announced on 08.11.2016. The lower off take of packaging materials as a result of change in consumer demand at various customers affected the working of the Company.

Industry Structure and Developments

The year 2016-17 witnessed lower rate of growth in almost all major segments that the Company caters. This is due to overall sluggish market conditions and the low requirement of packaging materials particularly post demonetization announcement in November 2016.

Financial performance

During the year although the Turnover marginally increased the EBIDTA margin has reduced from 17.31 % to 16.41 %. The EBITA amount also reduced due to higher overheads and additional burden of depreciation and interest. The Profit after Tax has reduced from ₹38.27 crores to ₹ 33.21 crores.

Dividend Policy and Amount

The Board of Directors of the Company has adopted the policy of paying out 20% of Net Profit, after taxation, as Dividend each year. Accordingly the dividend amount of ₹6.25 per equity share is recommended.

Opportunities

The overall macro economic conditions in India are now showing sign of improvement. With the geographical presence of the plants set up in the four corners of the country and commencement of flexible packaging business the Company can cater to a large segment of customers packaging requirements in various parts of country.

With the introduction of GST in the country and Customer having big clientele it will have an edge over its competitor particularly those from unorganized sectors.

Threats

There continues to be increase in capacity of packaging manufacturers resulting in over supply coupled with inflation led increases in costs of not only raw materials but also operating expenses. This is a big threat from operating margin perspective. Your Company however mitigates this by continuous increase in productivity and catering to value added products.

Further the company does significant quantity of its business with the cigarette industry which is under constant threat due to increase in taxes levied by both Central & State Governments which impact the overall volume besides the new rule to print with enhanced graphical health warning on the packs.

Segment-wise or product-wise performance

The Company is having only one segment of business i.e. Printing and Packaging

Outlook

The Company's outlook towards business is improving, mainly due to increase in clientele base and expansion plans undertaken by the company.

Risk and Concerns

The Company being a manufacturer of packaging materials is always exposed to the general risks such as government regulations and policies, statutory compliances, etc. The Company from time to time identifies the risk and has put in its place appropriate measures for mitigating such risks.

Internal Control System and their adequacy

The Company has adequate internal control system and a defined organizational structure besides, internal rules and regulations for conducting the business. The Management reviews actual performance with reference to budgets periodically. The Company has a qualified Audit Committee, independent Statutory Auditors and also Internal Auditors who submit reports periodically which are reviewed and acted upon.

Material Development in Human Resources / Industrial Relations Front, including number of people employed

Industrial relations continue to remain cordial during the year and total 1598 employees are on the Company's payroll as on 31st March, 2017 as compared to 1323 employees on the Company's payroll as on 31st March, 2016.

WORKING REVIEW

During the year 2016-17, the gross turnover of your Company has increased marginally to ₹655.42 crores from ₹626.51 crores for the previous year ended 31st March, 2016 representing a growth of 4.61 %.

As you may be aware, the Company continues to do a share of its business by the conversion route (defined as business where the customer provides the main raw material). However, had all the products been sold on sales basis, the turnover would have been ₹ 690.00 crores as against ₹660.34 crores representing a growth of 4.49 %.

The year under review has been a difficult year for the Company due to the macro economic conditions that the company had to encounter. The performance of the company was affected adversely on account of the demonetization notification that the Government of India announced on 8th November, 2016, whereby there was a drastic reduction in the offtake of packaging materials as a result of lower consumer demand of our customers. This event in fact caused a reduction in overall volume and for the first time in many years, for the quarter ended March, the Company's sales were actually lower than the corresponding quarter of the previous year. Your Directors consider that the lag effect of the demonetization effect was largely instrumental in this reduction. In addition to the above, the exchange rate of Rupee v/s U.S. Dollar & Euro has also had an adverse effect on the Company's performance.

As you are aware, the Company exports a fair share of its products and most of these transactions are conducted in US Dollar currency. Since the Rupee has appreciated against US Dollar, there was reduction in the realization of our exports, which not only lowered turnover but also affected profitability.

During the year, your Company has undertaken major expansion projects. Your Directors are pleased to announce that all of them were completed satisfactorily.

Silvassa offset packaging plant has been expanded by installing a new KBA offset printing line with all accessories which commenced commercial production in October 2016. This machine is equipped with several advanced features enabling high value packaging to be converted.

Further, the Guwahati plant of the Company has also received another new printing line from KBA, Germany which was installed in March 2017. Commercial production has also commenced on this machine. By the installation of this machine, the capacity of Guwahati plant has been doubled which shall be useful to cater to the growing volumes of the Company in the North Eastern region of India.

Further, the Company has taken a major step forward in entering into the flexible packaging segment and has set-up a green field plant at Silvassa. This plant was ready for trial run in September / October 2016 and has started commercial production in February 2017. This plant is also equipped with state-of-art equipment which are mainly imported from Italy and its output though at a low volume has stabilized. With the entry of your Company into this fast growing segment, it can now cater to a very large part of the customers overall packaging requirements.

As a consequence of the above, the Company had to bear an additional burden of depreciation and interest besides overheads coupled with low growth in sales. The EBITDA margin for the year has reduced from 17.31 % to 16.43 % resulting in a lower profitability.

FUTURE PROSPECTS

As a result of various expansion plans undertaken by the company over the past few years, your Company presently has 15 highly configured printing lines installed cumulatively across its various plants.

As a result of the same, the Company has very large capacity by which it can realise significant growth in the years to come. Now that the lag effect of demonetization is behind us, your Directors are confident of achieving higher rates of growth in the future.

The company is now well positioned in the market place on account of larger and more varied manufacturing base, as a result of expansion carried out recently.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the internal financial controls system over financial reporting.

Meaning of Internal Financial Controls Over Financial Reporting

A Company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles.
